 9 H Waikato University

# THE AUCKLAND ORIENTEER

**LETTERS TO THE EDITOR**

Dear Editor,

I recently rejoined the Auckland Orienteering Club after a 10 year absence. I am very excited about getting back into orienteering and to introducing my husband to orienteering as he is new to the sport. At a recent OY event, we brought along a couple of friends to try out orienteering for the first time. One of these friends brought his dog with him. We were most upset to read in the results and now in the May edition of *The Auckland Orienteer* that dogs are not welcome at orienteering events. I have two points to raise about this. Firstly, while at the OY event, nobody approached my friend nor myself about having the dog with him while competing in the event. Had he been approached, we would have immediately placed his dog on a lead and left her at the car. Secondly, on discussions with Roger Sheriff, Recreation Manager for Carter Holt Harvey, it is clear that dogs are more than welcome in Carter Holt Harvey forests as long as they are "under control". They are not required to be on a leash.

As a returnee to the sport and on behalf of the newcomers I have just introduced, I believe the issue of dogs at events could have been approached in a more sensitive manner rather than in the threatening tone that it came across in both the editorial and the OY results. I am sure that the writers of the editorial and the results did not mean to come across in such a negative manner but unfortunately you did. A polite note in the results and a brief reminder in the magazine to newcomers that dogs are not welcome at events would have been more appropriate. Also a polite suggestion to my friend that he tie his dog up at the event would have been appreciated.

I strongly support the notion of no dogs at farm events for obvious reasons, but it would probably pay to get the facts straight about

dogs in Carter Holt Harvey forests. If orienteering chooses to ban dogs from all events then so be it and I will be the first to respect this request, but for the sake of newcomers, can we please go about it in a non-threatening manner. Lets see some kind of welcoming statement to newcomers in both the magazine and results - so far I have been very disappointed with the negative tone that has come across in both forums.

Jill Mains

## COUNTIES- MANUKAU NEWS

Our Queens Birthday Event was a resounding success. Competitive spirit was high and despite the cold easterly everyone enjoyed the highly technical courses.

After 3 days I came to realise the amount of effort required by all in running such a key event.

Trish Aspin was nominated for the Masters section of the Counties Manukau Sports Person of the Year Awards held at the Lakeside Convention Centre in Mangere. We congratulate Trish for being amongst the three finalists!!

Next Club Meeting at Bob and Sonya Hatties residence, 1<sup>st</sup> Wednesday of the month - 5<sup>th</sup> August.

BOB HATTIE 299 6394

## 25 YEARS!!

We celebrated 25 years of orienteering in NZ at Trumps Restaurant, Waiuku.

It was an enlightening, fun evening with Neil Lewis as M/C, Neil and Uni were founding members back in 1971. Uni competed and excelled in the Elites Grade through the 70's.

Geoff and Terri Muir - landowners of Day 2 and 3 and guests of CMOC were acknowledged and presented with a framed Kariotahi map.

Colin Battley, another founding member and top Elite through the 70's spoke of his past experiences.

Stories and anecdotes from John and Robin Davies who have been around since 1972 started the Pinelands Club and were responsible for introducing John and Val Robinson to orienteering.

Ralph King spoke of past exploits and was acknowledged for all his work in publishing articles on orienteering and the results from events in the Herald over the years.

On an even lighter note, John Robinson covered the humorous side of orienteering.

Graeme Teahan spoke of our goals for the future, Graeme helped lobby the IOF to have the World Masters "O" Event in New Zealand in the Year 2000.

All in all a very enjoyable evening.

Bob Hattie 2996394

## NORTHWEST NEWSHOUND

### North West News May 1998

Orienteering received great free publicity Shore-wide with the recent front page article in the local newspaper, featuring the Nash twins, Jonine and Michelle, resplendent in full technicolour in their Birkenhead College O-suits. Hopefully the article may generate more interest in our sport and perhaps sponsorship for the girls' JWOC campaign in July. NWOC has made a 'small' financial contribution towards their travelling expenses, just as we have supported other orienteers in the past. They have been training hard and posting consistently good OY results. Best wishes for France!

Also on the promotions front, Dave Middleton has spoken about orienteering 3 times on radio "603 YES A.M." - a sports hour programme. Ann Fettes helped with a scout camp at Mahurangi and reported that after participating in a host of other activities, many scouts were too tired for Sunday's orienteering exercises!

Over the past month Bryan Teahan has held several O CAD training sessions for would-be cartographers. The Ocad programme can be used on even a basic computer, with very presentable results, so hopefully we can look forward to some newly enthused mappers.

#### Dates to Remember

11th July Dinner and Film night at "Ryders"  
(177 Riversdale Rd, Avondale) on the evening before the Mid-Winter Madness event at Shakespear

Reserve. Please phone Gay Ambler 09 424 7010 to book for dinner.

31st Oct The grand inaugural score event to commemorate the achievements of life member Ralph King who turned 75 this year. The score event is planned as an annual fixture to honour Ralph, who has been one of our most prolific forest mappers as well as a top ranking competitor. This event is on the Saturday before the Auckland relays.

#### People and Achievements

Keith Stone has spent a month trekking in the Everest base camp region of Nepal- marvellous walking and vistas mixed with misgivings about altitude acclimatisation and insanitary conditions. Keith has again taken on the important role of OY statistician - many thanks.

Martin Girling, who was seriously injured in a fall from a ladder, is now in the Otara Spinal Unit and in good spirits.

Sasha Middleton has been in Sweden for the Tia Mila relay and plans a full schedule of orienteering. She and Kirsten Ambler hope to be picked for the World Cup events in England, Ireland, Poland, Estonia and Slovakia - Good luck!

Several club members took part in the forest run and mountain biking event organised by WACO at Muriwai. Our club also had an O event that shared the same start and finish area. Several keen club members managed to run, bike and orienteer all in the same day. The best result was Mark Lawson, 3rd in the 10km forest run.

#### Next club meeting

The June meeting will be on Thursday 11th June at Geoff and Lisa Mead's home, 10B Patuone Avenue, Devonport. Turn up at 6:30pm as there will be an off road pack run in Devonport before the meeting. A torch might be useful? Meeting starts at 7.30 PM.

The following meeting will be held on Thursday 9th July at 19:30pm at Jill and Alastair Smithies' home, 4B Fairbanks Place, Glendene. All club members are most welcome.

LISA MEAD 445 4555

## Auckland Chatter

### *Triumphs at the Nationals.*

Alistair Stewart won M45 classic. And we had all expected him to enter M 60.

Joanna Stewart came 3<sup>rd</sup> in Short O W 45. And we had all expected her to enter W35.

Terry Nuthall was 3<sup>rd</sup> twice in M55 (and beat the Ricochet Rabbit in the classic).

Tom Clendon did his best ever k rate in the classic, and came last.

Darren Ashmore had two seconds in the men's elite, one of which will forever remain controversial.

The police used a Mangere Mountain map to grid search for the petrol can used in the dreadful killing beside the sports centre. It wasn't marked.

### Awards of merit from OY3.

Selwyn Palmer and Eddie Reddish for speed redesign of courses.

The four club members who got the new tunnel tent up within 60 minutes. Mark Roberts said that a thinking orienteer can get it up in 15 minutes alone. We will be watching at the Auckland champs when he will have two chances to set a new record.

Annette Wilson for selfless service by a non runner at the finish.

A bar for Annette Wilson for keeping it all together when the \$600 print clock went mad again.

Clare Codling, who on finding she couldn't get

to the forest to both run and do her stint on the start, chose the start. (Co-ordinators should run early as the mess-ups do tend to occur later, rather than early. Not that it would have mattered in this case as the co-ordinator spent the majority of the morning and some of the afternoon on his course).

### Uniformity

New club suits (and a matching club meeting flag) are out and look great in red white and blue! It is unfortunate that Ralph King runs in a near clone suit. He says it doesn't matter as at his k rate the colours on his suit blur into a light khaki. Design and purchase of suits Rob Jessop, design and build of flag Janice Cyprian. The suits were more heavily subsidised by the club than planned due to our failure to take krone forward cover. The suits are bold, the price is right and Rob has a few left if you move fast

### Last but not least.

Our relay team is the National Champion Club Team for 1997!

Well done Terry Nuthall, Alistair Stewart, and Darren Ashmore.

It is a pity that we couldn't send the club A team down to give them a run for their money.

ANDY BREWIS

## AOA TRANSITION

The presidents of the five Auckland orienteering clubs met on April 18.

Those involved were:

Stew Barr	WACO
Andrew Brewis	AOC
Rob Hattie	CMOC
Dave Middleton	NWOC
David Niven	WHO

It was decided to replace the AOA with an informal board comprised of the five club

presidents.

The members would initially meet three monthly.

The key functions of the board will be:

To seek overall benefit for orienteering in Auckland through more organised co-operation between the clubs.

To manage issues of common interest.

Issues to be addressed will include:

- 1 The events programme.
- 2 The technical organisation of OYs (including the recording of results)
- 3 Forest access.
- 4 Publicity (including induction paperwork, the O mag and recruitment).
- 5 Area wide social activities.
- 6 Training.
- 7 A review of the ways in which mapping may be undertaken in the future.
- 8 Interface with NZOF.

The group has named itself 'The Auckland Area Management Committee'.

It is envisaged that the group have no formal structure or legal identity. Any finances, for example, will be handled by one of the clubs on the boards behalf. None the less, it is believed that the structure will strengthen planning and organisation Auckland wide and provide the base for a common Auckland view on national issues.

It is proposed that the presidents will brief suitably qualified orienteers to take responsibility for the management of specific issues on their behalf.

### **RANDOM RAMBLINGS.....**

These are actual comments left on Forest Service registration sheets and comment cards by backpackers completing wilderness camping trips in the good ole US!:

"A small deer came into my camp and stole my

bag of pickles. Is there away I can get reimbursed? Please call."

"Escalators would help on steep uphill sections."

"Instead of a permit system or regulations, the Forest Service needs to reduce worldwide population growth to limit the number of visitors to wilderness."

"Trails need to be wider so people can walk while holding hands."

"Ban walking sticks in wilderness. Hikers that use walking sticks are more likely to chase animals."

"All the mile markers are missing this year."

"Found a smouldering cigarette left by a horse."

"Trails need to be reconstructed. Please avoid building trails that go uphill."

"Too many bugs and leeches and spiders and spider webs. Please spray the wilderness to rid the area of these pests."

"Please pave the trails so they can be plowed of snow in the winter."

"Chairlifts need to be in some places so that we can get to wonderful views without having to hike to them."

"The coyotes made too much noise last night and kept me awake. Please eradicate these annoying animals."

Reflectors need to be placed on trees every 50 feet so people can hike at night with flashlights."

"Need more signs to keep area pristine."

"A McDonald's would be nice at the trailhead."

"The places where trails do not exist are not well marked."

"Too many rocks in the mountains."

## THE TEN COMMANDMENTS

A little wisdom courtesy of Peter Watson of HBOC;

1. **IF** There is no such word
2. **ERRORS** You will always make them and it is a matter of reducing them rather than eliminating them. If you are not making small errors you are not going fast enough.
3. **RACE FIT** This is a much higher level than being fit and will enable you to think clearly at the end of your course rather than only for two-thirds of it.
4. **EXCUSES** As Susan Devoy has stated, there are none. This has taken me years to learn.
5. **HAVE A PLAN** [Aiden Boswell] For every control you should have a plan. If you reflect back on your errors you will conclude no plan equals error. I still haven't learnt this one.
6. **SLOW DOWN** [Rob Garden] as the master states, you need to slow down or stop if necessary in the control circle. Only recently learnt this one.
7. **COMMITMENT** The difference probably between being well placed for 10 years as I was, and winning. Thanks to Caroline and family for putting up with the necessary evil of eight weeks of training. Also thanks to Derek for showing me what real commitment is.
8. **BELIEVING YOU CAN WIN** This is something that is a step process and I was close to accepting that second was my lot in life until my unexpected win in 1997 club champs. This completely changed my philosophy as I thought if I can win only being partially fit what could I achieve if I was fully race fit. It is also a change from hope to expectation.
9. **SECOND IS NOWHERE** [1995 WORLD RUGBY CUP FINAL] I know this is not politically correct but I believe it is better to risk a good placing and win than to settle for second.

### 10. TAKING THE BAD WITH THE GOOD

[Geoff Morrison] I will probably never learn to do this well as I have to go away and sulk after a bad run. Geoff has shown me how to handle it better.

### CONTROLLERS CLINIC

29 - 30 August

If interested in becoming a controller contact Bruce Collins (Note: this course is a prerequisite to becoming a controller).

Phone (07) 8255745

or Email [bruce.collins@clear.net.nz](mailto:bruce.collins@clear.net.nz)

### APOC98

*Asia Pacific Orienteering Championships  
October 12-18, 1998*

*Beijing*

*Orienteering Association of China*

*Welcome*

*On behalf of Orienteering Association of China,  
I have great pleasure in inviting you to the '98  
Asia Pacific Orienteering Championships.*

*We are very proud that '98 APOC is organised  
in the birthplace of compass on the occasion of  
centenary of Orienteering.*

*We will do our best to make '98 APOC a  
success and give everyone an unforgettable  
experience in Orienteering.*

**WEI JIZHONG**

President of Orienteering  
Association of China

**ORGANIZER:**

Orienteering Association of China.

A14 Tiantan Dongli Zhongqu, Beijing, China

Tel: 86 10 6702 5488

Fax: 86 10 6701

6974

E-mail: crsa@public.bta.net.cn

**EVENT CENTRE:**

The event centre is located in Miyun County. It is 60km away from the capital international airport and 80km away from the city of Beijing. It enjoys beautiful scenery, fresh air.

**PROGRAMME:**

Monday 12 October: event centre open  
 Tuesday 13 October: arrival and registration  
 Wednesday 14 October: Model Event, Opening ceremony, Welcome dinner  
 Thursday 15 October: Individual Classic Distance Event  
 Friday 16 October: sightseeing, Meeting of '98 APOC  
 Saturday 17 October: Relay Event  
 Sunday 18 October: Individual Short Distance Event, Prize giving ceremony, Farewell banquet

**MAPS:**

The competition maps are newly drawn in 1997 for APOC.

Scale: 1:10,000. Contour interval: 5m

**TERRAIN:**

The competition terrain covers hillsides, small forest, small marshes, open grass hills, cultivated land, the best terrain for orienteering in Beijing.

**TEMPERATURE:**

The average temperature during that period of year is 12°C.

**CLASSES:**

Junior: H/D12, H/D14, H/D16, H/D18, H/D20

Senior: H/D Elite(A,B)

Older: H/D35, H/D40, H/D45, H/D50, H/D55, H/D60, H/D65

Upper age classes may be provided upon require.

**ENTRIES:**

Entry fee for each participant is USD 30.00. It includes: Transport from Beijing capital international airport to the competition centre, local transport from the competition areas to appointed hotel and vice versa, maps.

Insurance: USD 6.00/per person.  
 Sightseeing: USD 9.00/per person.  
 Welcome dinner: USD 10.00/per person.  
 Farewell banquet: USD 15.00/per person.

Entry form and the above cost of total USD 70.00 shall be received by Orienteering Association of China not later than August 31, 1998. After this date, entries could be accepted with USD 20 late fee.

Those who will not stay at the appointed hotels should also pay the above cost.

**ACCOMMODATION:**

Two types of accommodation will be offered:

Type A: 3-star hotel single room/twin-bed room

Type B: hostel single room/twin-bed room

-Type A single room USD 390.00

twin-bed room USD 300.00

(extra bed in twin-bed room will be charged 240.00 USD)

-Type B single room USD 330

twin-bed room USD 260

(extra bed in twin-bed room will be charged 210.00 USD)

The cost includes board and lodging for per person from Oct. 13 to the morning of Oct. 19, except the welcome dinner and Farewell party.

**EXPENSE AND PAYMENT:**

The organiser should receive the above fee no later than August 31 1998. Otherwise the organiser could find it difficult to arrange the accommodation for the participants.

## Break Through on O cad.

The AOC committee is delighted to report that our mapping officer, Mark Roberts, has made a technical breakthrough on the O cad. Mark, more by chance he tells us than design, discovered that if he puts a black cartridge in the printer he is able to print very simple black and white maps at little more cost than that of the paper.

Your committee spotted an opportunity not only to help club members reduce the boredom of their weekly training run but also to attack WACO's near monopoly hold on training.

The club has set up a technical committee to develop New Zealand's first do it yourself O map kits.

Each kit will consist of several sheets of paper on which a number of typical map features are printed. All the home orienteer needs to do is to cut out the features and stick them to a plain piece of paper, configuring them to the streets, buildings and parks in his or her area.

The prototype assembly, which was used in last month's Auckland Orienteer, is reproduced again below.

At this time the symbols approved by the steering committee have been limited in the cause of simplicity and lower cost and are those that were used in the prototype. They are also shown below.

The committee which has already had some input on the symbols that might be most useful for the home map designer (some of which are given below) are seeking comments from as wide a range of orienteers as possible.

Darren Ashmore that home training maps might just provide the edge to enable him to gain two firsts at next years Nationals (if one is held). He favoured the development of a man made object symbol as there are several of those in the area in which he lives.

Ralph King said that he didn't care what was developed first as long as sufficient symbols were available to enable him to make forest maps. He told us that he was very fond of running in the forest, especially if he had drawn the map and set the course himself.

Rob Garden favoured the development of rows of trees and wind breaks. He felt a couple of small lakes would be of value to orienteers in

general, as would a packing shed and an office café loo complex.

Graham Peters discouraged the development of the contour line at this stage. He believes that orienteering is a speed sport and the introduction of hills on to courses is not to be encouraged.

Val Robinson favoured the development of a map limitation line. She explains that it is hard enough keeping 'the ricochet rabbit', from running off a 'proper map'. Without boundaries on an RR designed map, she felt that he may never be seen again. After more mature thought, she decided that a boundary line was not of critical importance as a symbol for a pub might work just as well and should cost less.

Joanna Stewart said that the juniors need simple symbols and suggested that we move towards a dotted line for tracks. She was also quick to suggest that the development of a triangle and circle (perhaps combined into a single symbol in the early days as a cost saver) would be of real use for young course setters. This suggestion has been viewed with some favour by Mark Roberts as the combined circle triangle could be used by Jill Smithies who is seeking a sky tower symbol for use on a 'lunch time and power break' CBD map.

We have even had comment from out of Auckland. David Nevin felt that a big W was critical at this stage if he is to succeed in getting Whangarei onto the orienteering map.

Chris Grove looked rather sad when he explained that he could not map in his area without the use of a cliff face. He also felt that a symbol for a ruin might be helpful at times.

Some comment we thought was a little self centred. Selwyn Paimer, Tom Clendon, Leon McGervin, Terry Nuthall and Phil Creagh (and their partners) favoured vineyard symbols above all other.

Tom Clendon was more helpful however when he reinforced the importance of a north line. He pointed out that given a north line and circles he could get round any course without the help of other symbols. Bert Chapman, on the other hand disagreed about the value of north lines. He has never used them any way.

However, Bert Chapman, who has just finished doing the field work for Mark Roberts on the Panmure basin map, expressed a need for an anchor symbol.

The matter of runnability has concerned some orienteers (but not John Powell who tends to take a direct approach). Mark Roberts already has this matter in hand and is working on a dot. If enough are provided in the kitset, he believes that they could be used in line for vegetation boundaries, singly for knolls and scattered around to indicate all sorts of things.

If you see value in extending the range beyond those suggested to date, please drop a note to the editor of the Auckland Orienteer.

## KIWIS FOR CANADA

An intrepid team of Jill Dalton, Tony Nixon, Michael Wood, Anne Fettes and Bert Chapman are combining forces to descend on the Canadian Sage Stomp event in Kamloops. Lured by the enthusiastic ravings of those who have been there before, this sounds like a great event. Most of the team are then going on to the US Champs at Cle Elum, and some are mad enough to compete in the World Rogaine event as well. If anyone else out there is contemplating the trip and needs information, then please contact Jill at jim.jill@clear.net.nz

Cheers Jill :-)

# THE AUCKLAND ORIENTEER

## *The AUCKLAND ORIENTEER...*

...is the monthly newsletter of the Auckland Orienteering Association, combining the Auckland, Counties-Manukau and NorthWest Orienteering Clubs. It is edited by Stan Foster and Colleen Lawson (8367072) and distributed by Lisa Mead, NWOC (4454555) and published at the beginning of every month except January.

## **Next Issue: July 1998**

Mail your contributions to 83A McLeod Road, Te Atatu South or fax 827 3996, or email SWFoster@xtra.co.nz

*The deadline for contributions for the June AUCKLAND ORIENTEER is Friday 26 June.*

Disks or email please, if you can; ASCII text with no hard returns, or Microsoft Word, on DOS 3.5" disks for preference. Please don't format your document with spaces or tabs, it takes me ages to get rid of them all.

I would prefer not to have to return your disk, but just ask and I will give you as many disks as you want, I have hundreds of them.

If you can't supply on disk, and the article is fairly

long, please supply as camera-ready copy, on A4 with a 16mm border all round (265mm x 178mm), and font size at 11 points. Careful! This border is smaller than your WP or typewriter would normally be set up for, and the font size is bigger.

*I am prepared to type contributions if necessary.*

## **Distribution**

If you change your address, please contact your club membership officer or Lisa Mead on 4454555. If you want a back issue of *The AUCKLAND ORIENTEER*, please contact your club membership person, or Lisa, or me.

## **Credits**

The New Zealand Orienteering Federation gratefully acknowledges the support of the Hillary Commission.
